EHS 0116 ~ First Aid Safety

Course Syllabus

| | | | |
|--------------------------|------------------|-----------------------------|-----------------------------------|
| Subject Category: | First Aid Safety | Course Prerequisite: | No |
| Course Length: | Three (3) Hours | Medical Approval: | No |
| Delivery Mode: | Class | | |
| Schedule: | bi-monthly | | * Dress casual for skill practice |

Course Purpose: This course is designed to prepare employees, particularly members of Building Emergency Teams, to take appropriate action in providing emergency first aid care to others until professional emergency responders arrive.

Course Objectives:

- Provide information on the signs and symptoms of various injuries and illnesses they might encounter in the event of a major incident where professional rescuers might be delayed.
- Provide employees with an introduction to the equipment available to them.
- Provide employees with opportunities to practice various methods of bandaging and splinting of injuries.

Course Instructional Materials:

- Video: ASHI Basic First Aid (provided by CPR, Etc.)
- Disaster Trauma Kits

Instructors:

CPR, ETC.
