EHS 604 ~ Hazardous Waste Generator Training

Course Syllabus

Subject Category: Waste Management
Course Length: 1.5 hrs
Schedule: Online

Course Prerequisite: [EHS0348](#) or equivalent
Medical Approval: None

Course Purpose: The goal of this course is to provide employees with the knowledge and resources needed to properly generate, accumulate and dispose of hazardous waste. The course is intended for anyone who will be generating hazardous waste, including Lab Managers and PIs.

Course Objectives:

After completing this course, learners will be able to:

- Protect Berkeley Lab staff and environment while managing hazardous waste
- Properly characterize waste for appropriate management from point of generation through storage, treatment, and disposal
- Store waste compliantly in generator areas
- Complete appropriate forms, including waste requisition for waste pick-up
- Identify sources of additional information

Instructors: Waste Management Staff

Training Compliance Requirements: 40CFR, 22 CCR, Hazardous Waste Handling Facility (HWHF) Waste Acceptance Requirements [HWHF Permit]

Participant Evaluation: Written evaluations regarding the effectiveness of the trainer, the training and the visual aids.

Written Exam: To receive course credit, you must complete the quiz at the end of the course with an 80% score.

Retraining/Recertification: No
