

Instructions for Generators: Disposition of salvage electronics and U-waste

*NEVER leave salvage electronics outside without proper containment and cover, since this could result in storm-water runoff contamination, and can also destroy otherwise reusable items, creating more UW.

Acronyms

CRT – Cathode Ray Tube (i.e. computer monitors, televisions, oscilloscopes)

CED – Consumer Electronic Devices (i.e. computers, computer peripherals, printers, palm pad, telephones, calculators)

UW – Universal Waste (i.e. electronic waste, or e-Waste is a subset of Universal Waste. UW also includes spent batteries, fluorescent lights, Hg containing thermometers and other Hg containing items. For complete list see California Code of Regulations, Title 22, Chapter 23)
