September 26, 2006

To Whom It May Concern:

The large amount of data that was contributed to the Adams Museum & House, Inc. by the Barrick Gold Corporation represents a substantial resource for the support of scientific and historic investigations of the northern Black Hills and the long history of underground mining operations of the Homestake Mining Corporation.

This material has been placed under the care of the Adams Museum & House, Inc. (AM&H) and access can be arranged to view, copy, or otherwise use the material within the regulations established by the non-profit organization. The AM&H welcomes such use and would expect that material scanned or otherwise converted to digital form during particular projects would be shared with the AM&H to assist with the process of disseminating the information from the Homestake material.

Persons selected to work on projects using this material are subject to the supervision of AM&H. The material is made available consistent with safety and legal considerations, and access is subject to the limitations of available AM&H personnel and times of Museum operations.

For further questions, please contact me at 605/578-1928 or Carolyn Pirnat (archivist) at 605/722-4611.

Sincerely,

A handwritten signature in blue ink that reads "Mary A. Kopco". The signature is fluid and cursive, with the first name being the most prominent.

Mary A. Kopco
Director
